Majestic Synthetic Oil Company is a leading provider of heavy-duty motor oil, gear/differential oils, hydraulic oils, antifreeze, grease, and various other industrial/machinery lubricants. Our company’s philosophy is based on the belief that only top-quality lubricants produced using the latest innovative technology should be utilized in the market today. Majestic proudly blends and packages its products in Houston, Texas, and is certified by the American Petroleum Institute (API). Our complete range of products and our attentiveness to customer service ensures complete customer satisfaction.

Quality and customer satisfaction are our top priority. All of our products meet or exceed the latest specifications set for by the SAE, API, ILSAC and various other industry and governmental regulatory agencies. Majestic Synthetic Oil Company:

- Ensures excellent performance, reliability, and longevity
- Maintains professional client relationships
- Provides first class lubricants products
Why Majestic?

Our Majestic product line encompasses a full range of high-quality lubricants with applications across various industries. We manufacture and package synthetic and conventional products that include heavy duty engine oil, hydraulic oil, gear oil, transmission fluid, antifreeze, and grease, among others. We offer the full line of Majestic products in various sizes, including totes, drums, gallons, and quarts. Majestic products can also be purchased in bulk.

Majestic is strategically located in Houston, an area that represents more than 70 percent of the US lubricant market and has a rich history of servicing the petrochemical industry nationwide. “Best-in-class” sales representatives, responsive distribution and customer service teams, and quality products make Majestic stand above its competitors. Through our dedicated employees and staff, we focus individually on each of our clients’ needs, and our clients have come to rely on Majestic’s entrepreneurial ingenuity to cost effectively solve equipment reliability issues through our product offerings.

Majestic Customers

Automotive/diesel engine workshops, wholesalers, distributors, retail shops, and gas stations use or sell various Majestic products. We have established relationships with all types of vendors and are knowledgeable of specific lubricant needs within each industry.
HEAVY DUTY ENGINE OIL

Majestic blended engine oil is premium grade diesel engine oil that provides excellent protection for newer, high performance engines.

Advanced Synthetic Blend Technology

- Multi-viscosity, thermally stable and durable formulation.
- Equipped for diesel engines with an exhaust after treatment system.
- Fuel saving properties and oxidation stability.
- High viscosity index.
- High dispersancy & detergency levels.

MAJESTIC SYNTHETIC BLEND TECHNOLOGY

MADE IN THE U.S.A.
Majestic 15W-40, 15W-50, and 20W-50 Heavy Duty Motor Oils are high-performance multi-grade para-synthetic lubricants, designed for use in high speed, four-stroke diesel engines, carbureted, fuel injected, turbo-charged and supercharged gasoline engines. Majestic 15W-40, 15W-50, and 20W-50 Heavy Duty Motor Oils provide superior protection against wear, corrosion, oxidation and varnish. Our unique detergent additive prevents sludge or carbon deposits in extreme heat or pressure conditions. Majestic Heavy Duty Motor Oils are formulated with high viscosity-index Type II paraffinic and synthetic base stocks to provide superior anti-shear properties, enhances engine performance and extend oil life. Majestic Heavy Duty Motor Oils are designed to ease cold-starts and eliminate viscosity breakdown.

Attributes:
- High performance multi-grade para-synthetic lubricant
- Designed for use in high speed, four-stroke diesel engines
- Designed for use in carbureted, fuel injected, turbo-charged and supercharged gasoline engines
- Designed for superior protection against wear, corrosion, oxidation and varnish
- Unique detergent additive prevents sludge or carbon deposits in extreme heat or pressure conditions
- Formulated with high viscosity-index Type II paraffinic and synthetic base stocks
- Superior anti-shear properties
- Enhances engine performance
- Extends oil life
- Eases cold-starts
- Eliminates viscosity breakdown.

Majestic ISO 32AW, 46AW, and 68AW Hydraulic Oils are formulated with high viscosity-index paraffinic base stocks and premium performance additives to provide excellent oxidation stability, corrosion protection, shear stability, and pumppability. This product is designed for wide array of operating conditions and temperatures. Our comprehensive additive package includes anti-wear, anti-corrosion, anti-foaming agents as well as detergency. Majestic ISO 32AW, 46AW, and 68AW Hydraulic Oils resists oxidation, rust, corrosion, foaming, varnish, and wear. Majestic R&O Hydraulic Oil offers protection against rust oxidation and corrosion. This is an economical multipurpose oil, suitable for use in a wide variety of industrial applications.

ISO 32 AW, 46 AW, and 68 AW Attributes:

- Formulated with high viscosity-index paraffinic base stocks and premium performance additives
- Excellent oxidation stability, corrosion protection, shear stability, and pumppability
- Designed for wide array of operating conditions and temperatures
- Comprehensive additive package includes anti-wear, anti-corrosion, anti-foaming agents as well as detergency
- Acceptable for a wide-range of applications
- Deters oxidation, rust, corrosion, foaming, varnish, and wear

R&O Attributes:

- Protection against rust and oxidation
- Protection against corrosion
- Low foaming
- Wide variety of industrial applications
- Economical multi-purpose oil
HIGHLY RECOMMENDED FOR:

- Vacuum pumps
- Nonconductive hydraulic fluid
- Bearings and gears
- Applications where general non-detergent type oils are applicable
- Hydraulic components: (valves, motors, servos, pumps, etc.)

Majestic gear oils are products that are developed and produced with performance additives to ensure protection against varnish and sludge, resulting in top-quality lubricants that meet or exceed the latest standards. The state-of-the-art technology in Majestic products delivers unsurpassed performance for low and high temperature applications, protection against thermal degradation and oxidation, service capability, and excellent fuel economy.

55 Gal. MAJ-204-D
275 Gal. MAJ-204-T

Majestic SAE 75W-90 and SAE 80W-140 Synthetic Gear Oils are formulated with synthetic base oils and premium gear additive packages to provide improved high-temperature thermal and oxidative stability in a wide range of operating conditions and advanced protection and lubricity in extreme pressure conditions. Majestic SAE 75W-90 and SAE 80W-140 Synthetic Gear Oils are highly shear stable while also resisting rust, oxidation, foaming, and varnish. These products are designed to exceed the year-around, all-weather performance viscosity requirements of SAE J306 as well as the rigorous performance requirements of API GL-5.

- Formulated with synthetic base oils and a premium gear additive package
- Formulated to provide improved high-temperature thermal and oxidative stability in a wide range of operating conditions
- Provide advanced protection and lubricity in extreme pressure conditions
- Highly shear stable while also resisting rust, oxidation, foaming, and varnish
- Designed to exceed the year-around, all-weather performance viscosity requirements of SAE J306 as well as the rigorous performance requirements of API GL-5
- Provided protection against the combination of thermal degradation, component wear, and oil seal deterioration

55 Gal. MAJ-202-D
275 Gal. MAJ-202-T

Majestic SAE 80W-90 and SAE 85W-140 Gear Oils are formulated with high viscosity-index, paraffinic base oils and specialty performance additives to produce highly shear stable gear oils that resist rust, oxidation, foaming, and varnish. These products are designed for hypoid in automotive axles under high-speed and/or low-speed, high-torque conditions and provide advanced protection and lubricity in extreme pressure conditions.

- Formulated with high viscosity-index, paraffinic base oils and specialty performance additives
- Designed for hypoid in automotive axles under high-speed and/or low-speed, high-torque conditions
- Specialty anti-scuffing additives and friction modifiers
- Provides advanced protection and lubricity in extreme pressure conditions
- Highly shear stable
- Resists rust, oxidation, foaming, and varnish
- SAE 50 Full Synthetic Heavy-Duty Manual Transmission Fluid (CD-50) is made with full synthetic (100% Synthetic) base stocks to extend drain intervals, improve fuel economy. This product is designed to have excellent cold-flow and anti-shear properties. SAE 50 full Synthetic PowerShift Heavy-Duty Manual Transmission Fluid is formulated to provide superior protection against corrosion, oxidation and wear.
  - Extends drain intervals
  - Suitable for use in applications which require Rockwell/Eaton/Fuller CD-50
  - Improves fuel economy
  - Suitable for use in applications which Eaton PS 164 rev 7

275 Gal. MAJ-205-T
Majestic Hi-Temperature NLGI No. 2 grease is a premium EP lithium complex grease that combines excellent multipurpose properties with a high dropping point and low-temperature pumpability that provides a wide operating temperature range. This product provides superior protection in heavily-loaded industrial applications.

- Wheel bearings in vehicles having drum brakes.
- Smooth texture, non-melting, possess excellent shear stability.
- Meets the highest performance categories of ASTM D-4950 Automotive Grease Classification System, GC for wheel bearing service and LB for chassis service.

- 10 Oz. Tube  MAJ-701-100Z
- 120 Lb. Keg  MAJ-701-K
- 400 Lb. Drum  MAJ-701-D

Universal ATF

Majestic Full Synthetic Universal ATF (Allison) is formulated with 100% synthetic base stocks and premium performance additives to provide oxidation and thermal stability, friction control, load-carrying ability, as well as corrosion and wear protection. This product is designed for use in many makes and models of automatic transmissions including passenger cars, light trucks, heavy-duty trucks, commercial vehicles, as well as off-road vehicles.

Majestic Full Synthetic Universal ATF meets or exceeds TES-295 specifications and offers premium anti-shudder durability, friction stability, shift quality, anti-wear protection, oxidation stability, and outstanding low and high temperature operation characteristics.

Product Availability
- 5 Gal.  MAJ-502-P

- 275 Gal.  MAJ-502-T
Majestic Red Antifreeze / Coolant is an ethylene glycol-based coolant for heavy-duty diesel, gasoline, and natural powered engines that protects your complete cooling system with no added SCA (Supplemental Coolant Additives) or testing required. Majestic Red Antifreeze is available as a concentrate and as 50/50 pre-diluted.

Majestic Green Antifreeze / Coolant is a premium, ethylene glycol antifreeze / coolant for use year-round in both aluminum and conventional metal engine cooling systems of automobiles, trucks, marine and stationary equipment and heavy-duty diesel engines (with the use of SCA). Formulated with a low silicate type rust and corrosion inhibitor system which effectively alleviates problems of gel formation and prevents loss of radiator heat transfer capacity. Majestic Green Antifreeze pre-diluted 50/50 is a 50/50 volume mixture of Antifreeze / Coolant with deionized water. For animal and child protection, Majestic Green Antifreeze / Coolant contains bitterant.

600,000 MILES/12,000 HOUR SERVICE LIFE

Available In Concentrate And Pre-Diluted 50/50 Formula

Receive up to 600,000 or up to 12,000 hours with a complete flush and fill using Majestic Antifreeze coolant product.
Majestic Yellow Universal Antifreeze / Coolant is a nitrite-free, premium quality product that is compatible with all automotive and light duty truck antifreeze / coolant products in automobiles. Our antifreeze provides service life up to and exceeding 5 years or 150,000 miles. It is ideal for initial fills, coolant change-outs or top-offs. Majestic Yellow Universal Antifreeze / Coolant not only guards against freezing and boil-over, it also provides critical protection against corrosion forming on system components, including aluminum.
